This meeting has been arranged by the St Clair West BIA (Business Improvement Area) to meet with members of the TTC, the City of Toronto and others who are involved in the Environmental Assessment (EA) which is studying changes to the St Clair streetcar service (including a possible dedicated right-of-way) to discuss the implications to their businesses .

Newly elected Councillor Cesar Palacio, representing our Ward 17 at City Council will also be attending.

The St Clair West BIA has decided to open up the meeting to the broader community so there will be an opportunity to become better informed on the subject - and engage in the discussion once their specific issues have been addressed.
